As the management of the Allegan Conservation District, we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of Allegan Conservation District for the fiscal year ended September 30, 2006.

FINANCIAL HIGHLIGHTS

- The assets of the District exceeded its liabilities at the close of the most recent fiscal year by \$93,772 (net assets). Of this amount, \$87,651 (unrestricted net assets) may be used to meet the District's ongoing obligations.
- The District's total net assets decreased by \$34,093 during the year.
- At the end of the current fiscal year, unreserved fund balance for the operating fund was \$87,651, or 32.5 percent of total general fund expenditures.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. To simplify financial reporting and improve readability, the government-wide financial statements and fund financial statements have been combined to report the statement of net assets and general fund balance on a single page and the statement of activities and general fund revenues, expenditures and changes in fund balance on a single page.

Government-wide financial statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The **statement of net assets** presents information on all of the District's assets and liabilities, with the difference between the two reported as **net assets**. Over time, increases or decreases in net assets may serve as a useful indicator of whether the District's financial position is improving or deteriorating.

The **statement of activities** presents information showing how the District's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Fund financial statements

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

Notes to the financial statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 7 through 9 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the District, assets exceeded liabilities by \$93,772 at the close of the most recent fiscal year.

| | 2006 | 2005 |
|--|------------------------|---------------------|
| Current assets Fixed assets, net | \$ 101,391 6,121 | \$ 151,316 5,039 |
| Total assets | 107,512 | 156,355 |
| Current liabilities | 13,740 | 28,277 |
| Net assets: Investement in capital assets Unrestricted | 6,121 <u>87,651</u> | 5,039 123,039 |
| Total net assets | \$ 93,772 | \$ 128,078 |

The District's net assets decreased by \$34,093, during the fiscal year due generally to an increase in cost sharing programs. Management will continue to seek ways to get funding through grants for projects and staff.

District's condensed statement of activities

| | 2006 | 2005 |
|-----------------------------------|----------------|------------|
| REVENUES | | |
| Federal grants | \$ 104,265 | \$ 175,680 |
| State grants | 99,850 | 112,380 |

| Other | 862 | 494 |
| Total revenues | 234,584 | 314,975 |
| EXPENSES Public works | 268,890 | 270,135 |
| Increase (decrease) in net assets | \$ (34,306) | \$ 44,840 |

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District used fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the District's *governmental funds* is to provide information on nearterm inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the District's financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of a District's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the District's sole governmental fund reported an ending fund balance of \$87,651, a *decrease* of \$35,388 in comparison with the prior year. All of the fund balance is unreserved and represents approximately 32 percent of total Operating Fund expenditures.

Budgets. The District amended its budget to reflect the loss of a field technician for part of the fiscal year. While expenditures did not very significantly from the amended budget, actual revenues were much lower than anticipated. This was due to incurring fewer costs which qualified for grant or other reimbursement.

Capital assets. The District's investment in capital assets as of September 30, 2006, amounts to \$6,121 (net of accumulated depreciation). There were no significant additions or deletions during the year.

Allegan Conservation District MANAGEMENT DISCUSSION AND ANALYSIS (Continued)

Economic Factors and Next Year's Budgets and Rates

The overall decrease in nets assets was a result of increased cost sharing expenses. Management will continue to encourage the wise management of natural resources by providing conservation programs, technical and financial assistance, and conservation education.

Requests for Information

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the District's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to:

INDEPENDENT AUDITORS' REPORT

Board of Directors
Allegan Conservation District

We have audited the accompanying financial statements of the governmental activities and the major fund of the Allegan Conservation District as of and for the year ended September 30, 2006, which collectively comprise the District's basic financial statements as listed in the table of contents. These basic financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities and the major fund of the Allegan Conservation District as of September 30, 2006, and the respective changes in financial position for the year then ended in conformity with U.S. generally accepted accounting principles.

The management's discussion and analysis and budgetary comparison information are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquires of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Board of Directors Allegan Conservation District Page 2

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Allegan Conservation District's basic financial statements. The schedule of revenues and expenditures - Operating Fund is presented for the purposes of additional analysis and is not a required part of the basic financial statements. The schedule of revenues and expenditures - Operating Fund has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

In accordance with Government Auditing Standards, we have also issued our report dated January 10, 2007, on our consideration of the Allegan Conservation District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grants agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Sigfied Crowled P.C.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The Allegan Conservation District (the District) was organized in 1947 for the purpose of "providing local guidance and involvement in the promotion of soil conservation in Allegan County, Michigan." The District is a local unit of State Government, which operates under the direction of a board of directors. The Board oversees the development and implementation of soil and water conservation activity in Allegan County, Michigan.

The accounting policies of the District conform to U.S. generally accepted accounting principles (hereinafter referred to as generally accepted accounting principles) as applicable to governments. The following is a summary of the more significant policies:

a) Reporting entity:

In accordance with generally accepted accounting principles and Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*, these financial statements present the District. The criteria established by the GASB for determining the reporting entity include oversight responsibility, fiscal dependency, and whether the financial statements would be misleading if data were not included. The District has determined that no other outside agency meets the above criteria and, therefore, no other agency has been included as a blended or discretely-presented component unit in the District's financial statements. Also, the District is not a component unit of any other entity.

b) Basis of accounting:

The statement of net assets and the statement of activities are reported using the economic resources, measurement focus, and the accrual basis of accounting. Revenue is recorded when earned and expenses when a liability is incurred, regardless of timing of related cash flows. Grants and similar items are recognized as revenue as soon as all the eligibility requirements imposed by provider have been met.

The modified accrual financial statements are reported using current financial resources, measurement focus, and the modified accrual basis of accounting. Revenues are recognized when they become measurable and available if collected in the current period or are expected to be collected within 60 days of the end of the current fiscal year end. Expenditures are generally recognized when the related liability is incurred.

c) Assets and liabilities:

- i) Cash Cash is considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.
- ii) Receivables All receivables are considered to be fully collectible as presented.
- *iii)* Capital assets capital assets, which consist solely of equipment, are defined by the District as assets with an initial cost of more than \$500 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are depreciated using the straight-line method over the following estimated useful lives of 5 to 10 years.

NOTE 2 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY:

Budgetary information - An annual budget is adopted on a basis consistent with generally accepted accounting principles for the Operating Fund. The budget document presents information by fund, function, and department. The legal level of budgetary control adopted by the governing body is the functional level. Amounts encumbered for purchase orders, contracts, etc., are tracked during the year. Budget appropriations are considered to be spent once the goods are delivered or the services rendered.

NOTE 3 - CASH:

A reconciliation of cash and cash equivalents to the District's deposits and cash on hand, as shown in the balance sheet, is as follows:

| Financial statements Cash | <u>\$</u> | 59,831 |
|--|-----------|--------------|
| Notes to financial statements: Deposits with financial institutions Cash on hand | \$ | 59,813 18 |
| | \$ | 59,831 |

Deposits with financial institutions:

Deposits are carried at cost and are maintained at various financial institutions in the name of the District. Michigan Compiled Laws, Section 129.91, authorizes the District to deposit and invest in the accounts of federally-insured banks, credit unions, and savings and loan associations. The District's deposits are in accordance with statutory authority.

Custodial credit risk is the risk that, in the event of the failure of a depository financial institution, the District will not be able to recover its deposits. Deposits are exposed to custodial credit risk if they are not covered by depository insurance. At September 30, 2006, all of the District's bank balances of \$67,726 was insured, and not exposed to custodial credit risk. The District evaluates each financial institution with which it deposits funds and assesses the risk level of each institution. Only the institutions with an acceptable estimated risk level are used as depositories.

NOTE 4 - RECEIVABLES:

Receivables as of year end for the District consist of earned grant revenue associated with program costs incurred by District through September 30, 2006.

Allegan Conservation District NOTES TO FINANCIAL STATEMENTS (Continued)

NOTE 5 - CAPITAL ASSETS:

Capital asset activity of the District for the current year was as follows:

| | Beginning balance | | Increases | | Decreases | | Ending balance | |
|--|----------------------|---------|-----------|---------|-----------|-------|-----------------|--|
| Capital assets being depreciated - equipment | \$ | 14,280 | \$ | 2,637 | \$ | 2,896 | \$ 14,021 | |
| Less accumulated depreciation | | (9,241) | | (1,555) | | 2,896 | (7,900) | |
| Total capital assets being depreciated, net | \$ | 5,039 | \$ | 1,082 | \$ | 5,792 | <u>\$ 6,121</u> | |

NOTE 6 - RISK MANAGEMENT:

The District is exposed to various risks of loss to general liability, property and casualty, and workers' compensation, with such risks being managed through the purchase of commercial insurance.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors
Allegan Conservation District

We have audited the financial statements of the governmental activities and the major fund of Allegan Conservation District (the District), as of and for the year ended September 30, 2006, which collectively comprise the District's basic financial statements and have issued our report thereon dated January 10, 2007. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements, and not to provide opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain other matters that we reported to management of Allegan Conservation District in a separate letter dated January 10, 2007.

Board of Directors Allegan Conservation District

We have audited the financial statements of the governmental activities and the major fund of Allegan Conservation District (the District), as of and for the year ended September 30, 2006, which collectively comprise the District's basic financial statements and have issued our report thereon dated January 10, 2007. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

In planning and performing our audit of the financial statements of the District, for the year ended September 30, 2006, we considered the District's internal control structure to determine our auditing procedures for the purpose of expressing opinions on the financial statements and not to provide assurance on internal control.

However, during our audit, we became aware of certain matters that are opportunities for strengthening internal controls and operating efficiency. This letter does not affect our report dated January 10, 2007, on the basic financial statements of the Allegan Conservation District.

The limited number of District staff reduces the opportunities for segregation of duties in the District's accounting processes. The District has implemented mitigating controls over the cash disbursement function by requesting that District board members review and approve vendor and payroll disbursements. Management should also seek ways to increase board member involvement in the cash receipting process, by having a specified board member review the composition and timeliness of bank deposits, and by reviewing and approving the District's cash receipt procedures during its annual tree sales.

We will review the status of these comments during our next audit engagement. We will be pleased to discuss them in further detail at your convenience, to perform any additional study of these matters, or to assist you in implementing these recommendations.
